Phone: 303-615-0746

Regular Office Hours (Drop in any time) :

Tuesdays and Thursdays
9:30 - 9:50 am, 12:30 - 1:50 pm

and Office Hours in MS Teams by appointment

TEXT: Hornsby, Lial, Rockswold, *A Graphical Approach to Algebra & Trigonometry, MyLab Math with Pearson eText, 7th edition*, Pearson, (2019). ISBN: 978-013-5963609 for 18 week access (1 semester)
ISBN: 978-013-4693781, 24 month access (if you plan to take MTH 1120 - College Trigonometry)

MyLab can be purchased online. MyLab contains the eText and the Student Solutions Manual. You don't need to purchase the text unless you want one. You must purchase MyLab access either separately or with the text.

You will have access to both MyLab and Canvas on **Saturday, August 17, 2024**.

See my class website for more detailed text information and options.

Graphing Calculator: A TI-84 Plus or equivalent graphing calculator is required for this course. The Math Department has a calculator loaner program. Information will be given in class.

HOMEWORK POLICY:

MyLab is an online homework system that comes with our textbook. Homework will be submitted weekly in MyLab and will count 10 points each. Late homework will not be accepted since lowest two 10 point homework scores will be dropped and the remaining scores will be averaged on a 100 point scale.

The Assigned Problems page are the corresponding problems from the text. This page is for reference only. MyLab will generate variations of these problems.

Be sure to read my online lecture notes. These contain worked out homework problems and show how you would work similar problems on the exams. MyLab prompts you for the answers only. On the exams, you must show all your work.

GRADE DETERMINATION: There will be three unit exams (20% each), a homework score (20%), and a comprehensive final exam (20%).

Exams:

Exam 1:	During Week 5	September 16 - 18
Exam 2:	During Week 9	October 14 - 16
Exam 3:	During Week 14	November 18 - 20
Final Exam:	Finals Week	December 9 - 11

All exams are taken in the Testing Center on campus. You will have a three day window (Monday - Wednesday) to schedule a 2-hour time slot to take each exam.

You may take the exams at another testing facility such as Accuskill, another college or university testing center, or a library. They may charge a fee for this service. You will need to send me the name and contact information of the person who will administer and proctor the exams at least two weeks in advance.

Missed exams:

No make-up exams will be given. The final exam score may be substituted for one missing unit exam. If no exam scores are missing, the final exam score will be used to replace the lowest exam score. In this case, the final will count as 40% of the course grade.

The final exam, in either case, is at least 20% of the course grade and is NOT optional.

Departmental Common Final Exam:

A departmental common final exam will be given during finals week.

Department Policy on Exams for Online Courses:

In the Mathematics and Statistics Department, all our online courses, including asynchronous courses, require students to take exams at an in-person proctored setting, such as the Testing Center on campus. If you have further questions regarding the in-person proctored exams requirement, please contact your instructor. You may also review the department website for alternative testing center locations:

<https://www.msudenver.edu/math/mathematics-statistics-exam-proctoring-requirements/>.

GRADING POLICY:

Grade	%	Grade	%	Grade	%
A+	96-100%	A	93-95.9%	A-	90-92.9%
B+	86-90%	B	83-85.9%	B-	80-82.9%
C+	76-80%	C	73-75.9%	C-	70-72.9%
D+	66-70%	D	63-65.9%	D-	60-62.9%
F	< 60%
